Australian Research Council

ARC Final Report – Research Networks

Researchers must note:

- A Final Report for each ARC funded Network should preferably be completed by the **Network Convenor (NC)** and endorsed by the DVC (Research) or equivalent person of the Administering Organisation.
- Unlike most other ARC schemes, Network Final Reports are not available in GAMS or RMS and should instead be completed on the following proforma.
- The **Network Convenor** may need to seek and enter contributions from Network **participants** where required (e.g. Participating Organisations).
- Where a textual response is required, the ARC is generally seeking between 1 and 5 paragraphs of information.
- The completed Final Report should be saved as either a rich text format (RTF) or scanned (PDF) document. The file name for the Final Report should conform to the following naming convention: **[Network ID][NC Surname].rtf** (for example: **N00000789Brown.rtf**).
- The saved RTF or PDF file should be attached to an **email** and sent by the Research Office of the Administering Organisation to the ARC.

Research Administrators please note:

- Network Final Reports should to be submitted to the ARC in **electronic (RTF or PDF) format**.
- Please email the electronic copy (RTF or PDF) to the ARC at final.reports@arc.gov.au
- Please ensure the file name for the electronic version conforms to the naming convention detailed above.

FINAL REPORT – ARC NETWORK

Part A NETWORK IDENTIFICATION

A1	Scheme	Research Networks
A2	Network ID	RN0460223
A3	Administering Organisation (Institution)	University of Western Australia
A4	First year funded	2005
A5	Title of Network	ARC Network for Early European Research

A6 Network Convenor

Title	Research Associate Professor
First Name	Anne
Family Name	Scott
Email address	anne.scott@uwa.edu.au
Work phone number	0864881173

A7 Other Participants

Appendix A to this report lists the original 50 NEER Participants. As NEER developed, more than 300 further participants joined the Network. A full register of NEER participants 2005-2010 is available on the archived NEER website:

http://www.arts.uwa.edu.au/membership/individual_participants

A8	For this Network, total ARC Funding requested	\$1,934,004.00
A9	For this Network, total ARC Funding received	\$1,682,399.00
A10	Number of years for which Funding was received	5

Part B DESCRIPTION AND OBJECTIVES

B1 Summary of Network Proposal (from the original Network application)

The Network offers a dynamic resource for enhancing Australian research into the culture and history of Europe between the fifth and nineteenth centuries. Through a programme of dedicated conferences and symposia, new digital resources, publications, and specialist postgraduate mentoring, Network management will mobilise existing strengths to build up national and international research partnerships in key emerging areas of scholarly enquiry. The Network will coordinate large-scale cross-disciplinary investigations, strengthen links with cultural heritage institutions and organizations, and nurture the next generation of researchers. It will make innovative use of digital infrastructure to manage communication and to disseminate results.

B2 Summary of original objectives of the Network

- Implement a formal framework for developing enhancing and supporting current innovative Australian research into the relationship between the long European histories that European settlers (and the subsequent generations of European immigrants) brought with them and the development of Australian society and culture.
- Focus existing research around four nodes which embody the innovative and unique Australian perspective on this international field: cultural memory; social fabric; science, medicine and environment; and Early European/Australasian connections.
- Employ international best practice in the use of digital technologies for the systematic dissemination of its research outcomes.
- Foster new research and new connections between researchers.
- Encourage participation by postgraduates and early career researchers through an e-mentoring program, residential seminars in advanced skills and methodologies, and internships and secondments.
- Build on and develop existing strong collaborative relationships in Australia and internationally within the higher education sector.
- Build on and develop existing strong collaborative relationships in the wider community, including cultural organizations and government.
- Maximize the international exposure of significant unique materials held in Australian cultural heritage institutions, through the development of the Digital Early Europe Portal.

Part C NETWORK OPERATIONS OVER DURATION OF FUNDING

C1 Were there significant changes to the Network's operations or its objectives?

Yes No

If Yes, briefly describe the changes and explain why they were made.

For example, changes may have been made because the ARC funding was less than the requested funding.

Leadership: The original Convenor, Dr Pamela Sharpe gained promotion to the University of Tasmania. She felt that her new job would not leave her time to convene the Network. Her work was, therefore, covered by Professor Andrew Lynch, 2004-2005, and A/Professor Anne Scott, October 2006-end 2009. The theme leader for Early European Australasian connections, A/Professor Lloyd Davis, passed away at the start of NEER's work and was never able to contribute. His role was taken up by Dr Peter Holbrook and Professor Richard Yeo. In each of these cases, the emphasis that would have been made by the original participant was modified by the experience and expertise of the replacement.

Bringing people together: (A) A fifth research theme, 'Religion and Spirituality', was introduced by popular demand of network members. The theme: 'Science, Medicine and Environment' was broadened to become 'Intellectual Formations: Science, Medicine and Philosophy'. In addition, 16 themed Research Clusters were formed to develop specific projects. (B) One large international conference was held under the auspices of NEER. Additionally, NEER supported three large conferences of the Australian and New Zealand Association for Medieval and Early Modern Studies. These benefited visibly from the invigorating influence of NEER across the field of Early European Research in Australia and New Zealand, and it was considered unnecessary for NEER to mount a second large conference as envisaged in the original application.

Training: The e-mentoring scheme for Postgraduates and Early Career Researchers was trialled for two years. It then became apparent that PGs and ECRs were being well-served by NEER's programme of Advanced Training Seminars, and by its support for their attendance at NEER-sponsored conferences and symposia. The success of the electronic networking facilitated by Confluence also meant that continuation of the e-mentoring scheme beyond the initial two years was considered unnecessary.

Digital services: One of four key elements of the digital services envisaged in the original application was a digitization programme. This was not attempted, because the funds received were less than those requested. It was felt that this activity could be left to cultural institutions to pursue. Nevertheless, a Linkage-Project application was developed out of the NEER Manuscripts Research Cluster by the University of Melbourne with the State Library of Victoria and the University of Western Australia as partners. It is being carried out during 2010-2012 and will include some digitization of medieval and Renaissance manuscripts held in Victorian public collections.

C2 Describe briefly the results and outcomes of the Network and their significance

- NEER has established a community of scholars in the field of Early European Research across Australia and New Zealand, from groups of scholars who were previously often working in isolation. NEER has particularly benefited scholars and institutions who formerly considered themselves to be apart from the mainstream centres of Sydney and Melbourne. This has been achieved by working together on five Research Themes, and in 16 Research Clusters. One full NEER conference was held, at which all the Themes were represented by dedicated panels. In addition to seven Theme symposia, NEER supported 34 conferences and symposia and 21 workshops. These have resulted in 19 monographs, 33 edited essay collections, and 12 further books under contract or consideration by publishers. Additionally, NEER funded one primary school archaeological project, while NEER participants curated seven exhibitions and produced four CD/DVDs through NEER support.

- By promoting the concept of interdisciplinary, inter-institutional and international collaboration, NEER has assisted scholars in building collaborative projects. Network members have gained 30 ARC Discovery Projects and 2 ARC Linkage grants which can be directly related to Theme and Research Cluster activity. A successful bid for an ARC Centre of Excellence in the History of Emotions was achieved by a core group of NEER participants in the 2010 round of ARC Centres of Excellence. The multidisciplinary collaborations formed through NEER were an integral part of the development of the successful bid.

- NEER's concentration on Postgraduate and ECR training and support has created a network of emerging scholars whose research has benefited from the mentoring they have received, and who have been inducted in the skills of academic collaboration. This has been achieved through 11 Postgraduate Advanced Training Seminars (PATS) and the provision of bursaries to attend 39 conferences, symposia and workshops across Australia.

- NEER's Digital Services Programme has implemented three Web services:

(i) Confluence, a wiki-based collaborative environment

(<http://confluence.arts.uwa.edu.au/dashboard.action>)

(ii) PioNEER, a repository for research outputs

(http://repository.uwa.edu.au/R?func=search&local_base=GEN01-NER01)

(iii) Europa Inventa, a database of information about Early European objects and manuscripts in Australian public collections (<http://europa.arts.uwa.edu.au>)

All three services are freely available on the Web to Australian and international researchers and the wider community, although some of the content within Confluence is restricted to specific groups and individual researchers. All three services are of international significance as the only examples of such research resources and outcomes on a national scale. NEER's leadership in this area has been acknowledged in a range of international conferences and publications and in an invitation to co-convene a European Science Foundation Exploratory Workshop on the application of Semantic Web technology to medieval manuscript research.

In addition to these digital services, NEER purchased access for 50 scholars each year to the database Early English Books Online (EEBO) and access, on request, for a number of participants to five databases available through Brepols Publishers, Belgium.

The NEER legacy can be summarised as follows:

(i) Two publication series which currently have five books in press or under consideration.

(ii) An established programme of Postgraduate Advanced Training Seminars (PATS) which will continue to be funded and organised by the Australian and New Zealand Association for medieval and Early Modern Studies (ANZAMEMS).

(iii) The continuation of a framework of support for the NEER Research Clusters through ANZAMEMS.

(iv) International connections developed by NEER will continue to be maintained and expanded by ANZAMEMS.

(v) The achievement of the ARC Centre of Excellence in the History of Emotions.

C3 Outline the national benefits—including economic, social, cultural and/or environmental contributions—resulting from this Network

- NEER's research agenda focused on the long European histories which lie behind contemporary Australian society and culture. NEER's activities aimed to enrich Australians' understanding of their European cultural heritage and to explain its continuing significance today. Of particular relevance has been the work of several of NEER's Research Clusters which have actively researched and interpreted the Early European heritage of manuscripts, early printed books and artworks held in Australian collections. The work carried out within the NEER Theme Early European/Australasian Connections has enhanced the body of knowledge concerning early European explorers, navigators and settlers, their contribution to the development of science, geography and culture, along with a deepening and broadening of understanding about Australia's position in the Asia-Pacific region.
- NEER's research agenda has been actively communicated and disseminated to the wider community through exhibitions, performances, lectures, conferences and other public events. NEER participants have published newspaper articles, appeared in television and radio broadcasts, provided input into school curricula, contributed to blogs and Web sites, and given lectures and courses for community audiences.
- Evidence of the interest of the Australian public in these matters can be found in the 110,000 people who visited the "Medieval Imagination" exhibition at the State Library of Victoria over an eleven-week period in 2008. NEER's sponsorship of and involvement in the organisation of this exhibition, and in other events of this kind, helped to raise the profile of these public institutions, and assisted them in explaining the relevance and significance of their collections.
- Sections D2 and D3 further list the cultural events that have benefited various communities throughout Australia as a result of NEER's activities.
- The achievements listed in C2 can also be considered as national benefits.

Part D RESEARCH COLLABORATION

D1 List the main Participating/Collaborating Organisations

Name of Organisation	Type of Organisation	Country
University of Western Australia	University	Australia
University of Adelaide	University	Australia
Edith Cowan University	University	Australia
Griffith University	University	Australia
Macquarie University	University	Australia
University of Melbourne	University	Australia
Monash University	University	Australia
University of Newcastle	University	Australia
University of Sydney	University	Australia
University of New South Wales	University	Australia
University of Queensland	University	Australia
University of Tasmania	University	Australia
University of Wollongong	University	Australia
State Library of New South Wales	State Library	Australia
State Library of Victoria	State Library	Australia
Australians Studying Abroad	Private Company	Australia
St George's Cathedral	Religious Institution	Australia
Western Australian Museum	Museum	Australia
UWA Publishing	Academic Publisher	Australia
Perth Medieval and Renaissance Group	Special Interest Group	Australia
Woodside Valley Foundation	Private Foundation	Australia

D2 Summarise briefly the nature and extent of collaborative arrangements and/or activities with each Organisation listed in Part D1

A summary of the collaborative arrangements/activities with each Organisation listed in Part D1 is provided in Appendix B at the end of this report.

D3 Outline any other cooperative links that have emerged between the higher education sector/industry/public sector users of research during the life of the Network

- Within the Higher Education sector in Australia collaborative links have been developed between original Network Participants of NEER and members of the following National institutions who became participants in the Network after its inception and the development of its scope:
Yarra Theological College, University of Southern Queensland, University of New England, University of Western Sydney, Flinders University, Curtin University, James Cook University, Australian Catholic University.
- International links have been pursued through participation in the work of NEER Research Clusters by 18 international institutions. Connections were also established with international cultural heritage organisations, publishers and academic centres:
http://www.neer.arts.uwa.edu.au/international_links
- NEER contributed to the development of the Newman Centre for Manuscript Studies in Melbourne and has collaborated with the Centre for Anglican Studies in Perth. Both of these institutions have provided channels for research scholarship to be shared with the community.
- Heritage institutions: In addition to collaboration with original partners, the State Library of New South Wales and the State Library of Victoria (international exhibition of medieval manuscripts, public lecture and conference), collaborative initiatives have been pursued with the Art Gallery of South Australia. Public exhibitions have been mounted by NEER members in The Baillieu Library, Melbourne University, The Morris Miller Library, University of Tasmania, the Barr Smith Library, University of Adelaide.
- NEER supported the Musicological Society of Australia in its Music Theatre Symposium at the Barr Smith Library Adelaide.
- NEER collaborated with the State Library of Queensland which provided the venue for a public lecture and conference organised by NEER.
- NEER worked closely with the State Library of Victoria to develop a framework for documentation and presentation on the Web of unique Early European manuscripts held in public sector institutions. This work is being carried forward in a Linkage-Project grant for 2010-2012.
- NEER collaborated with the Western Australian Museum on public lectures and reciprocally providing conference speakers for events open to the general public.
- NEER supported two Adelaide Festival performances.
- NEER developed and sustained a number of work-place internships with Brepols Publishers NV (Belgium).
- NEER collaborated with the Woodside Valley Foundation to provide a top-up scholarship to a UWA PhD candidate, and publicised the WVF's educational work and research holdings at a number of public conferences and lectures.

Part E OUTPUTS

E1 Research Classifications

See www.arc.gov.au/applicants/codes.htm for details on RFCD and SEO codes. List up to 3 RFCD codes and 3 SEO codes from highest to lowest %, to the nearest multiple of 10%.

RFCD code	% weighting		SEO code	% weighting
430108	40		750902	40
420399	30		750901	30
420201	30		751001	30

E2 Publications and other academic outputs (over period of ARC funding)

Enter the number of outputs in each category. Include 'published' and 'in press' publications, but exclude 'forthcoming' and 'submitted' work.

A1	Book—authored research	19
A2	Book—authored other	NA
A3	Book—edited	33
A4	Book—revision/new edition	1
A4	Book—translation	NA
B	Book chapter	238
C1	Journal article—articles in scholarly refereed journal	163
C2	Journal article—other contribution to refereed journal	12
C3	Journal article—non-refereed article	6
C4	Journal articles—letter or note	2
D	Major reviews	11
E1	Conference—full written paper—refereed proceedings	9
E2	Conference—full written paper—non-refereed proceedings	9
E3	Conference—extract of paper	2
E4	Conference—edited volume of conference proceedings	2
E4	Conference—unpublished presentation	1860
F	Audio-visual recording	16
G	Computer software	NA
H	Designs	NA
I	Patents	NA
J1	Major creative works	NA
J2	Creative work included in group exhibition, performance, recording or anthology	4
J3	Exhibition curatorship	7
K	Other academic outputs (in categories other than those listed above)	7

E3 Have any of the investigators or their works won prizes, awards or other major tributes as a result of the research?

Yes No

If Yes, give details.

--

E4 Evidence of impact and contribution – Is there evidence that this Network has had an impact in the research field or the broader public domain?

Yes No

If Yes, briefly describe the impact and contribution.

- Internationally, NEER has inspired imitation in the European based CARMEN (Co-operative for the Advancement of Research through a Medieval European Network). CARMEN has adopted a number of research initiatives developed by NEER and modelled some of its governance practices on the Network.
- NEER's digital services programme has been at the forefront of international e-humanities research and development, and has been recognized through a range of international conference papers and publications as well as in an invitation to co-convene a European Science Foundation Exploratory Workshop in this field.
- NEER's collaborative Web service, Confluence, has provided a vehicle for communication with international researchers in the field of Early European Studies. The Institute for Medieval and Early Modern Studies, a joint venture of the universities of Bangor and Aberystwyth in Wales, has adopted NEER's Confluence service as its mode of e-collaboration. One of the successful CARMEN Eurocores projects is also planning to use NEER's Confluence service.
- Over the five years of its funded life, NEER has changed the face of collaborative research in the field of Medieval and Early Modern Studies in Australia. It has initiated systems that encourage and assist scholars in scaling up research projects. The successful application for an ARC Centre of Excellence in the History of Emotion, hosted by the University of Western Australia, has been made possible by the intensive networking, development of collaborative practice, and growing understanding of how to construct multi-disciplinary research projects fostered by NEER. The 14 collaborative ARC Discovery Project grants and two ARC Linkage grants gained over the five-year period, nine awarded in the final two years of the Network, and the successful bid for an ARC Centre of Excellence, are also a testimony of NEER's influence in the research area.
- The collaborative infrastructure developed by NEER has been adopted by the professional Australian and New Zealand Association for Medieval and Early Modern Studies (ANZAMEMS). These particular systems include the training of Postgraduates and Early Career Researchers (PATS), and the digital infrastructure of Confluence and PioNEER. These latter systems make visible globally the research output of Medieval and Early Modern Studies in Australia and New Zealand.
- The NEER programme of Postgraduate Advanced Training Seminars (PATS) has also been considered as a possible basis for an expanded research training for the Australian Academy of the Humanities.
- In general, NEER has assisted in the re-evaluation of humanities research in Australia and has provided infrastructure to scholars in order to achieve expanded research goals.

E5 Research commercialisation

Provide details of any commercialisation resulting from the Network against the categories listed below (over period of ARC funding).

Number of patents	List all application numbers, titles, types and where lodged
<input type="checkbox"/> Pending <input type="checkbox"/> Filed	NA

Number of plant breeder rights holdings	List all application numbers, certificate numbers and titles
<input type="checkbox"/> Pending <input type="checkbox"/> Filed	NA

Number of invention disclosures	List all application and certification numbers for each disclosure
	NA

Number of licenses executed (includes licences, options and assignments)	List details of all licences
NA	NA

Number of start-up companies formed	List all company names and ABNs
NA	NA

E6 Describe any other commercial outcomes from the Network

NA

Part F RESEARCH TRAINING, CAREERS AND EMPLOYMENT

F1 Postgraduate research training – Australian postgraduates supported by this Network (over period of ARC Network funding)

For the purposes of this question supported means students who received support for participation in Research Network activities with a student specific focus (eg student summer exchanges, Post Graduate only workshops).

	Enrolled	Graduated
Number of PhD students receiving support	89	35
Number of research Masters students receiving support	3	1
Number of Honours students receiving support	NA	NA

F2 Postgraduate research training – Overseas postgraduates supported by this Network (over period of ARC Network funding)

For the purposes of this question supported means students who participated in the Research Network activities.

	Enrolled	Graduated
Number of overseas PhD students involved in the Network	NA	NA
Number of overseas research Masters students involved in the Network	NA	NA
Number of overseas Honours students involved in the Network	NA	NA

F3 Early career researchers (over period of ARC Network funding)

Early career researchers are researchers with up to 5 years postdoctoral experience.

Number of ECR researchers
39

F4 Other employed personnel (over period of ARC Network funding)

Number of research associates/assistants funded (full time)	0
Number of research associates/assistants funded (part time)	4
Number of professional and/or technical officers	4
Other Partner employees (not PIs)	1
Other personnel involved (provide details below)	3

Other personnel involved: three software engineers from the private firms Buzzware Solutions and Aurora Software who were contracted to develop the *Europa Inventa* database.

Part G FUNDING

G1 Has the expenditure of the grant differed significantly from the budget outlined in the application?

Yes No

If Yes, provide details.

(Include, if relevant, lower ARC funding than requested, or changes to funding anticipated from other sources.)

--

G2 Expenditure

Total expenditure on equipment (over period of ARC funding)

NA

Provide the breakdown of expenditure for the purchase of major research equipment that was significant to the Network Research Program, the development of new research capability in Australia or for the establishment of the Network.

Items purchased	Purchase price	Comments
NA	NA	NA
TOTAL		

G3 Has the Network income been sufficient to achieve the original aims of the Network proposal?

If 'No', provide reasons.

The Network income has been sufficient to achieve all the aims of the original application except the digitization programme noted in Part C1. It was acknowledged at an early stage of the Network's activities that major libraries and galleries had already embarked on their own large-scale digitization of material of interest to NEER. Consultation with experts also revealed that, even if NEER were to attempt digitization on behalf of smaller libraries and galleries, the cost of equipment and the employment of suitably qualified staff could not be sustained by the NEER funding.

G4 Income

Source	Commitment at time of application	Actual contribution
<i>ARC funding</i>	\$1,682,399.00	\$1,682,519.00
<i>Administering Organisation</i>	\$200,000.00	\$200,000.00
<i>Participating Organisation(s)</i>		
University of Melbourne	\$100,000.00	\$100,000.00
University of Sydney	\$20,000.00	\$20,000.00
Woodside Valley Foundation	\$25,000.00	\$25,000.00
Perth Medieval and Renaissance Group	\$1,800.00	\$1800.00
State Library of NSW	\$2,500.00	\$2,500.00
<i>Other (give details in section below)</i>		
TOTAL	\$2,031,699.00	\$2,031,819.00

G5 Provide details of the in-kind contributions from all Organisations (including the Administering Organisation)

Organisation	Description of in-kind contribution	Amount (\$)
University of Western Australia	Infrastructure (offices, email, phones, photocopying) for NEER staff; IT and office support for other staff; overheads, CI time; use of venues	\$2,073,477.00
University of Adelaide	IT and office support; overheads; CI time; use of venues	\$59,640.00
Edith Cowan University	IT and office support; overheads; CI time	\$7,446.00
Griffith University	IT and office support; overheads; CI time; use of venues	\$129,516.00
Macquarie University	IT and office support; overheads; CI time; use of venues	\$20,274.00
University of Melbourne	IT and office support; overheads; CI time; use of venues	\$452,170.00
Monash University	IT and office support; overheads; CI time; use of venues	\$250,596.00
University of Newcastle	IT and office support; overheads; CI time	\$47,294.00
University of Sydney	IT and office support; overheads; CI time; use of venues	\$271,890.00
University of New South Wales	IT and office support; overheads; CI time	\$151,896.00
University of Queensland	IT and office support; overheads; CI time; use of venues	\$259,378.00
University of Tasmania	IT and office support; overheads; CI time; use of venues	\$250,318.00
University of Wollongong	IT and office support; overheads; CI time; use of venues	\$100,656.00
State Library of New South Wales	IT and office support; overheads; expert advice; use of venues	\$22,000.00
State Library of Victoria	IT and office support; overheads; expert advice; use of venues	\$94,000.00
Australians Studying Abroad	Expert advice	\$3,400.00
St George's Cathedral	IT and office support; overheads; expert advice; use of venues	\$13,800.00
Western Australian Museum	IT and office support; overheads; expert advice; use of venues	\$9,100.00
UWA Publishing	IT and office support; overheads, expert advice	\$18,000.00
Perth Medieval and Renaissance Group	IT and office support; overheads; use of venues	\$10,000.00
Woodside Valley Foundation	IT and office support; overheads; expert advice; use of venues	\$23,300.00
	TOTAL IN-KIND CONTRIBUTION	\$4,268,351.00

G6 Is there appropriate source documentation readily available to demonstrate to an auditor the contribution of all the Participating Organisation(s) to the Network?

Yes No

If No, provide details.

Part H CERTIFICATION

H1 Network Convenor’s Certification

I certify that to the best of my knowledge the information in this Report is true and complete.

Convenor (Network)

Name _____ Signature _____ Date signed / /

H2 Deputy Vice-Chancellor (or equivalent) certification

H2.1 Comment on the operations or outcomes of the Network or the information contained in this report

H2.2 I certify that to the best of my knowledge, the information in this Report is true and complete.

Deputy Vice-Chancellor (Research) (or equivalent)

Name _____ Signature _____ Date signed / /

Part I

Thank you for completing the Network Final Report. The ARC may contact you if clarification or further information is required to acquit the grant.

Information on this form is collected in order to determine whether the Network funded by the ARC has reached satisfactory completion and for evaluation and reporting purposes.

Researchers should note that if the Final Report is not submitted on time, or if the ARC is not satisfied with the outcomes and outputs of the Network, this will be noted against any further applications under any ARC program submitted by, or on behalf of, the Chief Investigator, and will be taken into account in the assessment of those applications. Applications under any ARC program may be deemed ineligible if submitted by, or on behalf of, a Chief Investigator, Fellow or Partner Organisation on any Network for which the Final Report is outstanding.

Information in the Final Report enables the ARC to account for the public funding of research and to promote the value of research to the Australian community. The ARC compiles statistical reports on the outcomes of publicly-funded research, drawing on the information you have provided in this Final Report.

Drawing on the information in the Final Report on the results, outcomes and significance of the research, the ARC may identify Networks which have broad interest for media coverage and/or inclusion in ARC publications including the ARC website. The ARC will endeavour to contact you should it wish to publicise the results of your research, but bear in mind that this may not always be possible.

APPENDIX A

A7 Other Participants

Person number	Family name	Initials	Organisation	Role
1	Sharpe	P	The University of Western Australia	NC
2	Barnes	GR	The University of Sydney	NP
3	Bennett	MJ	University of Tasmania	NP
4	Broad	JS	Monash University	NP
5	Broomhall	SM	The University of Western Australia	NP
